An Update on the Planned Enhancements for Voyager Beach Resort - 2026

Dear Partners,

We are pleased to provide you with a further update on the ongoing redevelopment programme at Voyager Beach Resort.

In our previous communication, we indicated that the project was progressing according to schedule, with completion anticipated by 15th July 2026.

While we have successfully completed the vast majority of the works and many of the newly enhanced facilities are now ready, we have elected to dedicate additional time to the final finishing touches and quality assurance. This will ensure that every aspect of the redevelopment meets the high standards that both you and your guests have come to expect from Voyager Beach Resort.

As a result, the full redevelopment programme will now be completed and fully operational from 1st August 2026.

We appreciate your patience and understanding as we focus on delivering a product that we can all be proud of. We firmly believe these enhancements will significantly elevate the guest experience and further strengthen Voyager Beach Resort's position as one of the leading leisure destinations on the Kenyan coast.

Should you require any further information or a more detailed update on the project, please do not hesitate to contact us.

Thank you for your continued partnership and support.

With Kind Regards,

The Voyager Team.
